Sing In & Setting

- ❑ Add the parameters
- ❑ Calculate norm of the calories for day
- ❑ Change the parameters in “setting”

The screenshot shows a web browser window with the address bar displaying 'localhost:62965/#/sign'. The page title is 'Sign In'. The KIWI logo, featuring two kiwi fruits, is centered at the top. Below the logo are four input fields: 'your weight (kg)', 'your height (cm)', 'your age (years)', and a dropdown menu currently set to 'Male'. A green 'GET STARTED' button is located at the bottom of the form.

Diary

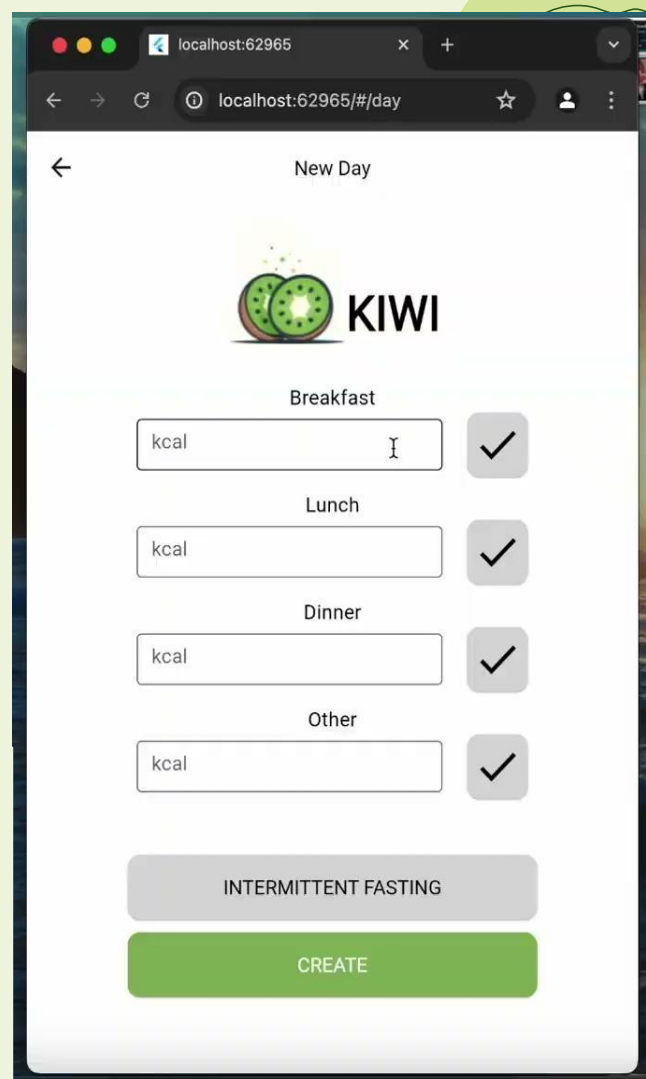

- ❑ User can add their breakfast, lunch, dinner and other snacks.

Home

Calculations

- ❑ App calculate the total calories for the day.
- ❑ The user can rate his day

The screenshot shows a web browser window at localhost:62965 displaying the 'New Day' form in the KIWI app. The form includes input fields for calories (kcal) for Breakfast, Lunch, Dinner, and Other, each with a confirmation checkmark. At the bottom, there are buttons for 'INTERMITTENT FASTING' and 'CREATE'.

Challenges and Solutions

Challenge

In our project,
we couldn't add
photos for a long time

Solution

We were able to
solve this with the
help of TA

Challenge

One team member's laptop broke down

Solution

He was working from another person's laptop or doing documentation

Challenge

Animation
didn't work

Solution

Information search
and 5 hours of work

DEMO
